PREFACE

This report presents information on the forty-two New Brunswick Provincial Parks operated during the calendar year 1991. All statistics, except for alpine skiing, are collected primarily from late May until early October. Off-season day use statistics are not included in this report.

This data is based on camp area permit and vehicle entry permit sales, ski tickets, golf greens fees, traffic counter readings and actual on site monitoring. A factor of 2.6 is used to ascertain the number of persons per vehicle.

Provincial park opening dates vary from late May until late June while closing ranges from Labour Day until early October (see pages 41-43).

Of the forty-two provincial parks operated in 1991, twenty-five have campgrounds while the remaining seventeen are day use facilities with beaches and picnic areas, scenic viewing areas or natural attractions. There are nine parks where either the campground or the whole park is contracted out to private operators. The Department also operated 2 golf courses, 1 alpine ski hill and 1 alpine slide.

Any questions about this report should be directed to Kirby Burtt or Phillip Ossinger at (506) 453-3601.

GLOSSARY OF TERMS

Average Occupancy Rate equals total number of permits sold multiplied by 100% divided by unit capacity multiplied by number of nights permits available.

Campers equals the number of permits sold multiplied by the length of stay multiplied by the average number per camping group(number of camper nights).

Camping Group Nights equals the cumulative total of permits issued per night for all units (total number of campsites in use per night).
